

MERIDIAN WEALTH PARTNERS

ASSET ALLOCATION POLICY

Investment Advisory Firm | SEBI Registration: INA000015429

Effective Date: January 2026 | Version: 2.1

Executive Summary

This comprehensive Asset Allocation Policy represents Meridian Wealth Partners' definitive governance framework for managing investment portfolios across its diverse clientele. The policy establishes systematic approaches to portfolio construction, risk management, client suitability assessment, and ongoing portfolio monitoring. Developed in full compliance with SEBI Investment Advisers Regulations, this policy reflects best practices in institutional investment management and fiduciary governance. The policy applies to all discretionary portfolio management services, advisory services, and model portfolio recommendations provided by the Firm.

1. DOCUMENT CONTROL

This Asset Allocation Policy document establishes the authoritative governance framework for all investment advisory services provided by Meridian Wealth Partners (the 'Firm'). Developed in strict accordance with the SEBI (Investment Advisers) Amendment Regulations, 2020, and aligned with fiduciary principles established in the Indian Securities Contracts (Regulation) Act, 1956, this policy ensures that all portfolio construction, rebalancing, and monitoring decisions reflect systematic, documented, and repeatable processes. The Firm recognizes that effective investment governance requires not only the establishment of sound policies but also rigorous mechanisms for compliance monitoring, regular review and updating, and continuous improvement to maintain relevance and effectiveness across evolving market conditions.

The document control framework ensures that (a) all authorized personnel have access to the current version of the policy, (b) all changes are tracked and approved through defined authority channels, (c) historical versions are maintained for audit and regulatory examination purposes, and (d) all personnel understand their responsibilities in implementing and adhering to the policy. The Chief Investment Officer is responsible for overall policy governance and periodic review. The Head of Compliance ensures adherence to regulatory requirements and maintains audit trails of all policy-related activities. The Investment Committee reviews the policy at minimum annually and recommends updates to the Managing Director.

1.1 Revision History and Version Control

Version	Effective Date	Major Changes	Approved By
1.0	January 2024	Initial policy framework; foundational allocation structures by risk profile	Investment Committee
1.5	July 2024	Tactical allocation band revisions; AIF eligibility criteria updates	Investment Committee
2.0	October 2025	Enhanced cash management procedures; InvIT framework additions	Investment Committee
2.1	January 2026	Quarterly review enhancements; governance clarifications; market capitalization updates	Investment Committee & Compliance

1.2 Distribution List and Access Controls

This document is classified as 'Confidential—Internal Use Only' and is distributed exclusively to the Chief Investment Officer, Investment Committee members, Portfolio Managers, Relationship Managers, Compliance Officers, Risk Managers, and Internal Auditors. Distribution to any external party including prospective clients, existing clients, board observers, or regulatory advisors is expressly prohibited without prior written authorization from both the Chief Investment Officer and Head of Compliance. Distribution is tracked through the Firm's document management system with unique document identifiers enabling reconciliation of all issued copies. Digital copies are maintained in access-controlled repositories with comprehensive audit trails capturing all user access events, dates/times of access, user identities, and whether copies were printed or forwarded. All recipients must sign acknowledgment forms confirming receipt and understanding of confidentiality obligations.

Distribution Channel	Access Level	Control Mechanism	Audit Trail
Digital Repository	Role-based authentication	Access logs with timestamp	Complete history maintained
Printed Copies	Unique document IDs	Physical document registry	Return attestation required
Email Distribution	Restricted recipients only	Encryption and watermarking	Send logs archived

2. PURPOSE, SCOPE & APPLICABILITY

Section 2 establishes comprehensive requirements and procedures governing portfolio construction and applicability frameworks. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

3. REGULATORY FRAMEWORK & COMPLIANCE

Section 3 establishes comprehensive requirements and procedures governing regulatory compliance and fiduciary obligations. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

4. DEFINITIONS & INTERPRETATION (18 KEY TERMS)

Section 4 establishes comprehensive requirements and procedures governing terminology and conceptual definitions. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

5. INVESTMENT PHILOSOPHY & GUIDING PRINCIPLES

Section 5 establishes comprehensive requirements and procedures governing long-term investment approach and philosophy. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

6. STRATEGIC ASSET ALLOCATION FRAMEWORK BY RISK PROFILE

Section 6 establishes comprehensive requirements and procedures governing strategic asset allocation across risk profiles. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

6.1 Conservative Profile

Asset Class	Target	Band	Min-Max
Equities	20%	±5%	15-25%
Fixed Income	65%	±5%	60-70%
Cash	10%	±3%	7-13%
Alternatives	5%	±2%	3-7%

6.2 Moderate Profile

Asset Class	Target	Band	Min-Max
Equities	50%	±6%	44-56%
Fixed Income	35%	±6%	29-41%
Cash	8%	±3%	5-11%
Alternatives	7%	±3%	4-10%

6.3 Moderate-Aggressive

Asset Class	Target	Band	Min-Max
Equities	70%	±7%	63-77%
Fixed Income	20%	±5%	15-25%
Cash	5%	±3%	2-8%
Alternatives	5%	±3%	2-8%

6.4 Aggressive Profile

Asset Class	Target	Band	Min-Max
Equities	85%	±7%	78-92%
Fixed Income	10%	±4%	6-14%
Cash	2%	±2%	0-4%
Alternatives	3%	±2%	1-5%

7. TACTICAL ASSET ALLOCATION — BANDS, AUTHORITY & DURATION

Section 7 establishes comprehensive requirements and procedures governing tactical allocation adjustments and authority limits. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

8. CONCENTRATION LIMITS & DIVERSIFICATION REQUIREMENTS

Section 8 establishes comprehensive requirements and procedures governing concentration limits and diversification rules. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

9. MARKET CAPITALIZATION CLASSIFICATION & REQUIREMENTS

Section 9 establishes comprehensive requirements and procedures governing market capitalization classifications and requirements. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

10. PROHIBITED & RESTRICTED INVESTMENTS

Section 10 establishes comprehensive requirements and procedures governing investment prohibitions and restrictions. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

11. ALTERNATIVE INVESTMENTS FRAMEWORK

Section 11 establishes comprehensive requirements and procedures governing alternative asset class eligibility and frameworks. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

12. CASH & LIQUIDITY MANAGEMENT

Section 12 establishes comprehensive requirements and procedures governing cash reserves and liquidity management procedures. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

13. IMPLEMENTATION & EXECUTION STANDARDS

Section 13 establishes comprehensive requirements and procedures governing trade execution and best execution standards. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

14. MONITORING, REPORTING & ESCALATION

Section 14 establishes comprehensive requirements and procedures governing portfolio monitoring and client reporting procedures. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

15. GOVERNANCE STRUCTURE & APPROVAL AUTHORITY

Section 15 establishes comprehensive requirements and procedures governing investment committee governance and decision authority. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

16. POLICY REVIEW, AMENDMENT & VERSION CONTROL

Section 16 establishes comprehensive requirements and procedures governing policy revision and amendment procedures. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

17. DOCUMENT APPROVAL & AUTHORIZATION

Section 17 establishes comprehensive requirements and procedures governing official approval and authorization signatures. These requirements ensure systematic, documented, and SEBI-compliant management of all portfolio construction and monitoring activities across the Firm's client base. Implementation of these procedures maintains consistency, reduces operational risk, and enables regulatory examination and audit of all material investment decisions.

APPROVAL & AUTHORIZATION SIGNATURES
